

Alfa Laval in Taiwan

Global presence

- **From Sweeden**
- **Found in 1883 year**
- **Operated in 100+ countries**

Key technologies

Offered separately or combined into optimized solutions

Heat transfer

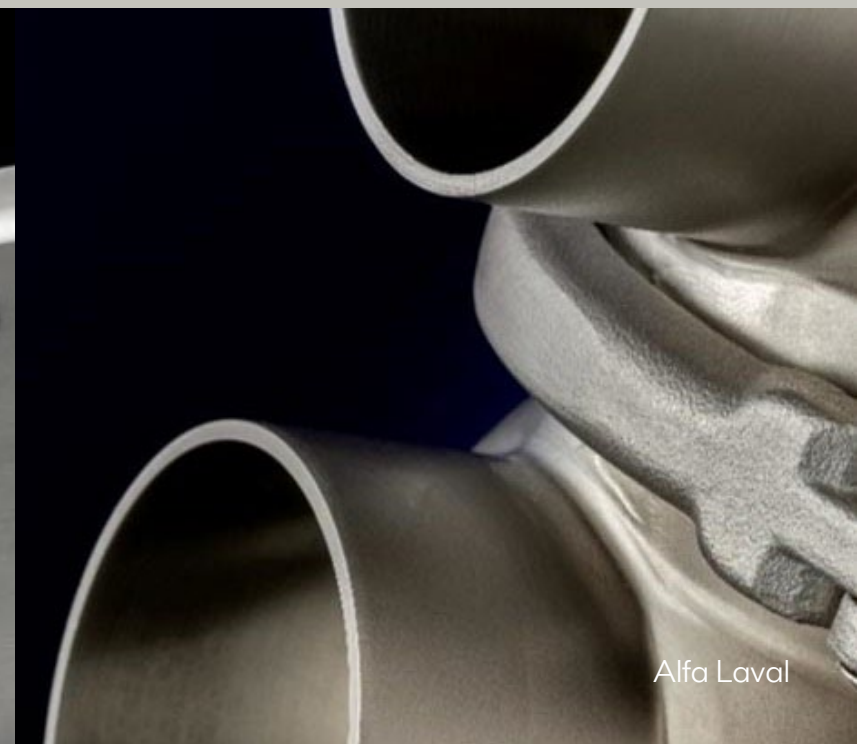

- Plate heat exchangers
- Spiral heat exchangers
- Shell-and-tube heat exchangers
- Thermal fluid systems
- Boilers

Separation

- High speed separators
- Decanters
- Membrane filtration

Fluid handling

- Hygienic and marine pumps
- Hygienic valves
- Mixers
- Tank equipment
- Installation material

Alfa Laval on board

**Enabling
the future today**

Wind propulsion
Through Oceanbird, a joint venture with Wallenius, Alfa Laval is enabling wind-assisted and wind propulsion.

StormGeo
Voyage optimization
Part of Alfa Laval, StormGeo is reducing fuel use and carbon emissions through digital services for optimized routing.

Key industries we served in Taiwan

Alternative protein

Biofuels

Biotech and pharmaceutical

Brewery

Chemicals

Clean energy & Power

Crude oil refinery

Data center cooling

Dairy

Food and beverages

HVAC

Industrial fermentation

Machinery

Marine and diesel engine

Oil and gas

Petrochemical

Pulp and paper

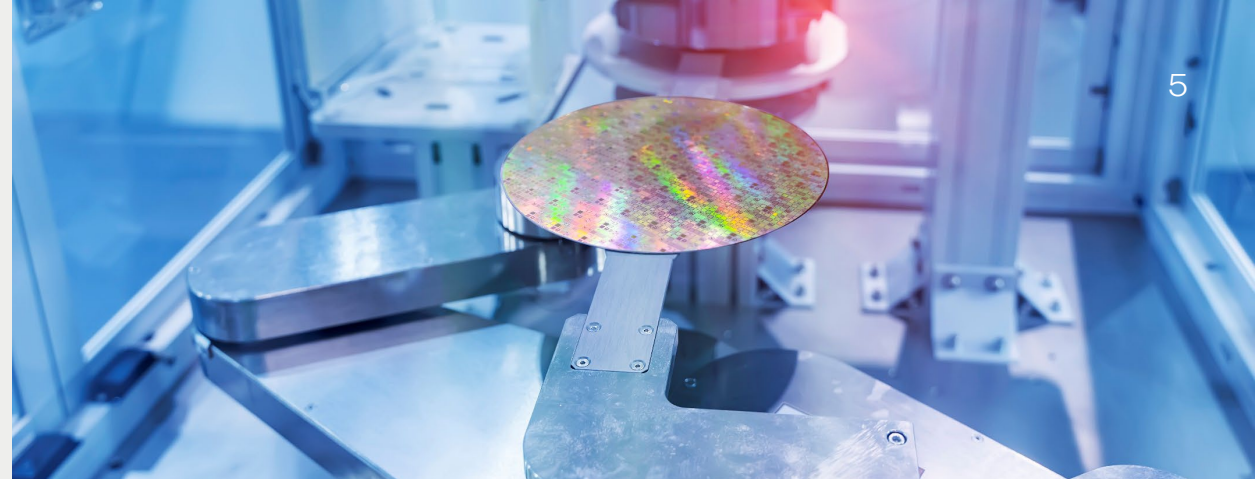

Refrigeration

Semiconductor

Steel and coke oven gas

Sugar

Water & waste water treatment
